Dear partners,

Due to the last two days outbreak of Covid-19 which brings up again the discussion of putting new measures in place on behalf of the Greek Government, in order to safeguard public, we are in the unfortunate position to modify the way that we will meet.

The circumstances oblige us to meet online on the scheduled for the 13th of July meeting, to avoid any potential risk for contamination.

As this is a last minute issue, we will try to arrange everything and inform you with regards to the platform we will use for our meeting if not today the latest on Monday.

We apologise for this last minute change and the discomfort this change brings to your plans.
